The Republicans did not hold their own in Indiana, Garfield falling behind Porter's majority in October.

THE Democrats carried all the Congressional districts in Kentucky except the Ninth, which elected John D. White by about 1,000 majority.

WHAT done the business. — *Nashville Herald.*

What has become of your grammar, Mr. Browne?

Is all the Democratic papers had discharged their duty during the recent campaign as faithfully as the Evansville Courier? the result might have been different.

We learn from Capt. Sandusky, that Owensboro Junction is improving some and business quite brisk there. Several new cottages, new side-walks, platforms, &c., are being built.

By reason of a division in the Democratic ranks on a local issue in Tennessee, the Republicans were enabled to elect Hawkins, their candidate for Governor, by a small majority.

We will quit politics, get a good dog and put in the winter hunting coons. If we do not the thieving Republican crew family of the Louisville *Commercial* will steal the last Democratic chicken we have.

Under the new Republican administration if the Hon. John Feland should be named as District Attorney for the State of Kentucky we should think it an excellent appointment. There is no better man in the Republican party.

The Louisville & Nashville Railroad Company will soon begin work on the Knoxville branch and complete it in the next 18 months. This will be another valuable connection for Louisville, and will become a leading artery in her commercial system.

We recently received a communication from Fredell, Bosque county, Texas, which is not published because the writer never gave us his or her true name. We make it a rule invariably not to insert anything received for publication unless the writer furnishes his or her true name. A fictitious name may be given for publication, but we require the true name as an evidence of good faith and for self protection.

Mr. GUYER, chief engineer of the Owensboro & Russellville Railroad, was at Owensboro Junction, a few days since, making preparation to look over the country from the Junction to Russellville, and make an estimate of the costs of completing it. We trust this much more of the road originally contemplated, will be built soon as it opens up a good section of country, and would give relief to some of those so heavily taxed for the purpose.

The Russellville *Herald-Enterprise*, of Wednesday, contains the following: "There is a rumor abroad that under the recent arrangement between the management of the Louisville & Nashville Company the Owensboro & Nashville line will be completed at an early date. We learn from a reliable source that the rumor is altogether sensational, and that there is not the remotest probability of the road being finished unless the company is compelled by sale to do so. An urgent need of money has been last week, but his object was to examine into the advisability of compromising suits against the company. After careful inquiry into the matter, we are convinced that the only chance for the O. & N. to be built is by suit brought with that in view. Whether or not that would succeed we are not advised." — *Messenger and Examiner.*

The United States Senate, after the 4th of March, 1881, will be composed of 39 Democrats and 37 Republicans. In the recent elections the Republicans lose two Senators, one each in Mississippi and Nevada, and gain six, one each in Connecticut, Indiana, New Jersey, New York, Ohio and Pennsylvania. The returns are not all in yet, and a few districts are so close as to be still in doubt, but from the best estimate we are able to make at this writing the next lower House of Congress will be composed of 149 Republicans, 136 Democrats, 8 Greenbackers, giving the Republicans a majority of five over all opposition.

The present Congress is composed of 149 Democrats, 130 Republicans, 14 Greenbackers, Democratic majority over all opposition five.

For genuine enterprise in procuring late news the young, talented and handsome editors of the Owensboro *Messenger and Examiner* beat the world. In the *HERALD*, of October 27, 1880, we gave an account of the attempt to murder and rob Dr. Lynn Ward, near Hartford, which occurred October 22, 1880. Now, the scene of this outrage was the enormous distance of 27 miles from Owensboro, and on the 5th of November, only fourteen days afterwards, they give an account of the affair and the Breckinridge *News* credit thereto, although the *News* had taken it from the *HERALD* of the week before. We confidently expect to learn from the columns of that enterprising paper soon that Christmas in 1880 comes on the 25th of December.

Too True. Will They?

The money-power is now on top and the laboring and producing classes are at the mud-sills. Will they be content at the bottom or will they rise and be on an equal footing—with equal representation and taxation? — *Legal-Tender.*

The Effect of Garfield's Election.

Commonwealth vs. Bill Midkiff and John Hunter. The trial of Commonwealth vs. Bill Midkiff and John Hunter was commenced yesterday and is still in progress at this writing. Mr. Ward testifies positively as to Bill Midkiff.

Mr. W. W. Follen, of South Logan, owns a clock more than 150 years old, which was purchased in London by his great-grand-father. It is a one-day piece and keeps perfect time. Compared to this, "Grandfather's Clock" is a mere youth. — *Herold-Enterprise.*

Corn loses one-fifth by drying, and heat one-fourteenth. From this the time is made that it is more profitable for farmers to sell unshelled corn the fall at 75¢ than \$1 a bushel in the flowing summer; and the wheat at 25¢ in December is equal to \$1.50 in the succeeding June. In the case of states—taking those that rot and are otherwise lost, together with the shrinkage—there is but little doubt that between October and June the loss to the owner who holds them is not less than per cent.

The Herald proposes to "ventilate tariff considerably" after the election over. That denouement to the Democracy has already been ventilated too considerably for the good of the Herold's party. — *Louisville Commercial.*

Mistaken. The denouement to the Democracy is because of the fact that they shifted and evaded the tariff issue whenever the Democrats make a protective platform and then stand up to and advocate it will as certainly succeed as the world stands.

The Coming Issue.

GREENCASTLE, IND., Nov. 5, 1880. — *Star Herald:*

The "melancholy days of Autumn" are come and are finding their past. our years more of Stalwart rule must be too many for man to bear. If ashton had risen from his grave and entered into the recent contest he could have been unable to contend successfully against the combined money power of the country, aided by the judges against the Solid South.

As the smoke of battle is being cleared away, and the political skies are becoming more visible, it may be time to open to indulge in a few reflections concerning the present status of political parties in this country, and to add a few remarks concerning those of the far future.

Being in the heart of a Northern state, opportunities arise that the writer able to make a few observations concerning the comparative merits of the two great parties of the present hour.

It is not difficult to see that the great bulk of the wealth of the Northern states is in the hands of the Republicans. All, or nearly all the monied corporations are especially so. The Democracy of the North have, therefore, no powerful forces to oppose, either in men, money or influence, to the monied party thus opposed by money and influence must, necessarily, do wonders achieve triumph in a close campaign, and here, in view of the recent struggle, it seems a foregone conclusion that unless the issues change, unless the Solid South ends, and, in brief, unless the real opposing forces should come arrayed against the Southern party with the monied power based upon a threat of our country will never be osened. So long as the present state of things continue, the capitalist, the bondholder, and the monopolist will continue to remain in a key-day of over and glory. The "Solid South," though solid against carpet-bag rule, is not strong enough to stand in politics like a sectional force, as a strong one for the capitalist to elevate himself into a higher plane of power and influence. Many honestly fear the ascendancy of the "Solid South," but admire the principles of Jefferson.

The nomination of English was another mistake. The Democrats have opposed national banks all the while, and to nominate for Vice-President a man who for years had been closely allied with national bank interests, and had made a fortune out of the same on an anti-national bank platform, or as the candidate of an anti-national bank party was not good policy, for there are thousands of voters who could not get it out of their minds that a man's official course would be in opposition to a system of business from which he had made large sums of money.

The residence of Dr. L. H. Hammond, near Elm Creek, was consumed by fire last Wednesday night. The Doctor was from home. The children were in bed in the room where the fire broke out. Mrs. Hammond had not retired, and hearing a noise went out to see what was the matter, and got there in time to save the children. She also saved some of their beds and bedding and sewing machine, and a few little things. The balance was all lost. There was no insurance, but the neighbors contributed quite liberally, which will be a great help.

Sometime since we received of J. Lewis & Sons, of Rosine, through Bob & Jack, the popular young grocers of Hartford, a sample sack of flour from the Rosine mills. We have recently tried it and find it to be excellent in the full sense of the word. In fact we can truly say that we have not been able to find a flour in this market superior to it, and cheerfully recommend it. Thanks to Messrs. Lewis & Sons for their kind remembrance.

The mysterious art has its fascinations and wonders, its pleasures and vexations, its sunshine and shadow. Few of the clouds have a silver lining, few of the mishaps are attended with pleasure, and its fascinations lead but a temporary joy. We had begun to fear that we had been forgotten and left alone in the mystic art only to be cheered by the music or flying type, when a rap at our sanctum door drew our attention, and upon opening the same two fairy forms greeted us whose happy faces made us forget our troubles and think only of the present and the happy pleasure that thrilled our heart and for a time filled its chambers with a flood of sunlight, which we hope will linger until another like visit.

The safe of Mr. T. M. Miller, Hardin-

burg, was blown open Monday night

and \$200 in money secured by the burglar.

It was evidently the work of

skilled professionals. They first wrapped the safe with six or seven blankets,

and then coiled a three-quarter inch

rope around these. They then drilled

into the top of the safe, at the front

corner, chiseled away the powder

and took it off. The wadding

deadened the sound of the explosion,

and the powder did its work thoroughly.

The thieves touched nothing else

but the safe.

Mr. Napoleon B. Rhoads, while run-

ning a raft of saw-logs on Rough Creek,

above town, last Monday evening, came

to an untimely death. The current

was very strong, and the raft became

unmanageable, and running against a

dead tree broke the top of the tree off

which will kill him to death almost instantly.
